JIG-A-LOO'S POPULARITY CONTINUES – PRODUCT NOW AVAILABLE ON HOMEDEPOT.COM

- Jig-A-Loo and Jig-A-Patch Now Available For Purchase Online-

MONTREAL, Canada (October 7, 2008) – Can't find Jig-A-Loo at your local hardware store? You can now purchase the invisible lubricant and water-repellent without leaving your chair. Jig-A-World announced today that Jig-A-Loo and Jig-A-Patch are available for purchase nationwide at The Home Depot stores and online through www.homedepot.com.

"We believe the availability of our products online will make Jig-A-Loo and Jig-A-Patch as easy to buy as they are to use," said Cindy Sutton, vice president of sales and marketing for Jig-A-Loo USA, Inc. "We want to make sure that everyone has access to Jig-A-Loo products, even if they don't have access to one of our retailer's in-store locations."

With the launch of their new partnership on homedepot.com, Jig-A-Loo USA, Inc. is offering a "Try one Free" national promotion. Starting October 13 through December 13, 2008, consumers can receive a rebate of their product purchase via mail. Rebate forms including promotional rules will be available to download on homedepot.com and on the company's website at www.jigaloo.com.

Jig-A-Loo is the world's first and only "lubripellent," combining a silicon-based lubricant and water repellent in one can. It stops squeaks, un-sticks just about anything and protects against water damage. Unlike other spray lubricants, Jig-A-Loo goes on dry and doesn't stain or smell. Because it's silicone-based, it contains no oil, grease, wax or detergent – so it's perfect for wood, metal, leather and fabric. It's also an excellent freeze and rust inhibitor.

Jig-A-Patch is the world's first sprayable spackle in a can. By combining three key elements needed for wall repair and paint preparation, high-quality sprayable spackle, putty knife and a reusable and washable sanding disk, Jig-A-Patch helps streamline the painting process by shortening prep time and reducing mess.
