

**FOR IMMEDIATE RELEASE**

## **JIG-A-LOO'S GRAPHITE EXTREME NOW AVAILABLE**

*- Extreme Lubricant Protects from Rust and Freezing, from -99 to 986 degrees F-*

**STATESVILLE, NC (July 22, 2009)** – Jig-A-Loo USA, Inc. ([www.jigaloo.com](http://www.jigaloo.com)), makers of innovative automotive and home improvement products, announced today that its award-winning extreme temperature lubricant, Graphite Extreme can now be found at Advance Auto Parts and The Home Depot stores nationwide. This quick-dry, high performance, graphite-based lubricant can withstand extreme temperatures from -99 to 986 degrees F. Graphite Extreme is available at over 5,000 retail locations in a 5.5oz format.

“We are thrilled to be able to offer Graphite Extreme in both the Home Improvement and Automotive channels” said Cindy Sutton, vice president of Jig-A-Loo USA, Inc. “Graphite Extreme marks our 4<sup>th</sup> product introduction at retail in the past 2 years.”

Designed to adhere and endure on components exposed to high heat, Graphite Extreme is ideal for doors/locks, automobile engines, gears, chains, snow blowers and electrical equipment. It can be used in extreme temperatures ranging from -99 - 986 degrees F. Graphite Extreme is also ideal for automotive applications wherever friction and heat cause lubrication problems like hard-to-reach places where manual lubrication presents problems. As an internal lubricant, Graphite Extreme can be used as an extra layer of protection just about anywhere under the hood. In addition to its lubrication and anti-seize properties, Graphite Extreme can be used to treat surfaces to prevent rust formation and freezing.
